Vimeo Video Setting Help

After Upload

1) set this privacy settings

The screenshot shows the Vimeo video settings interface. On the left is a sidebar with a menu: General (expanded), Info, Privacy (highlighted), Collections, Collaboration, Embed, Interaction tools, Distribution, Stats, and Upgrade. The main content area is titled 'Privacy' with the subtitle 'Choose who can (or can't) see your video.' It contains several settings: 'Who can watch?' set to 'People with the private link' (with a red checkmark), a private link 'https://vimeo.com/285882558/38a1c7286c' with a copy icon, 'Where can this be embedded?' set to 'Specific domains' (with a red checkmark), a list of domains including 'domain.com', 'empowery.com', and 'parsimony.com', 'Who can comment?' set to 'No one' (with a red checkmark), and two toggle switches for 'People can download this video' and 'People can add to collections', both of which are turned off (with red checkmarks).

Privacy

Choose who can (or can't) see your video.

Who can watch?

People with the private link

<https://vimeo.com/285882558/38a1c7286c>

Where can this be embedded?

Specific domains

domain.com

empowery.com x parsimony.com x

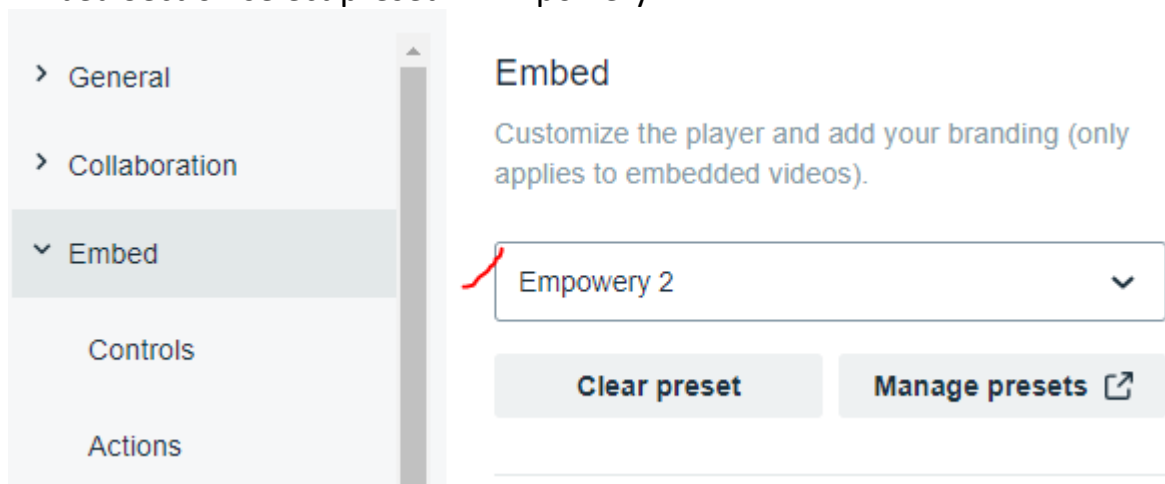

Who can comment?

No one

People can download this video

People can add to collections

2) Embed Section select preset = "Empowery 2"

The screenshot shows the Vimeo video settings interface with the 'Embed' section selected in the sidebar. The main content area is titled 'Embed' with the subtitle 'Customize the player and add your branding (only applies to embedded videos).' It contains a dropdown menu for 'Empowery 2' (with a red checkmark), a 'Clear preset' button, and a 'Manage presets' button with an external link icon.

Embed

Customize the player and add your branding (only applies to embedded videos).

Empowery 2

Clear preset

Manage presets

3) Copy the Embed code

Embed

Customize the player and add your branding (only applies to embedded videos).

Empowery 2

Moon -General

Embed code

Embed code

```
<iframe src="https://player.vimeo.com/video/285882558"
width="640" height="360" frameborder="0"
webkitallowfullscreen mozallowfullscreen allowfullscreen>
</iframe>
```

Copied!

After copy while pasting it into Premium / Basic page as per the video, remember to change the width="256" height ="144"

For Basic Video

Add to

<https://www.empowery.com/desk#Form/Web%20Page/basic-videos>

For Premium Videos

Add to **Course Video Mapping** doctype

<https://www.empowery.com/desk#List/Course%20Video%20Mapping/List>
